Re: Modine Manufacturing Company – Camdenton, MO
Quarterly Report for period ending June 30, 2012
AOC No. 99-HW-002

Dear Ms. Kump-Mitchell:

The following is a summary report of the activities completed from April 1, 2012 through June 30, 2012 at the above referenced site. This report is being submitted as required by the Corrective Action Abatement Order on Consent, Order No. 99-HW-002 (AOC) paragraphs 91 through 94.

Description of work completed during the quarter:

In April 2012, Modine completed the removal of all production equipment from the facility remaining as of the end of March. Following equipment removal, Modine cleaned the interior of the building and removed all wastes and any unused raw materials. Modine terminated its lease with its landlord prior to the end of April.

Summary of findings, data, etc.:

No additional data was collected or submitted during this monitoring period.

Summary of problems or potential problems and any corrective measures implemented:

No problems were encountered during the quarter being reported.

Projected work for the next reporting period:

As stated in previous reports, given the significant changes interior to the facility completed this past March and April, Modine believes that it is possible that indoor air quality may improve following equipment removal and subsequent facility cleaning. As such, Modine is considering a resampling of the indoor air following vacating of the premises. Modine is in the process of reviewing a draft memorandum prepared by CH2MHill which summarizes the 2010 indoor air sampling results compared against US EPA's new Regional Screening Levels (RSLs) established in late 2011, and revised in early 2012. The memorandum also outlines a path forward for further evaluation of indoor air quality. Modine intends to arrange a discussion with MDNR with the objective of reaching an agreement on a future course of action.

522044

Instances of Non-compliance with the requirements of the Order:

There were no instances of non-compliance with the requirements of the Order during this reporting period.

If you have any questions concerning this report, please contact Mr. Thomas Meitner, EH&S Manager at (262) 636-1412, or by email at t.e.meitner@modine.na.com.

Sincerely,
